Essential O&M Programs

O&M program management and execution that ensures maximum asset value for the long term.

Welcome to SunGrid.

We're an independent company comprised of engineers, designers, and project managers committed to generating turnkey energy solutions for a better tomorrow. Our collective experience, dedication, and technical expertise in the "ENERGY REVOLUTION" since 2011 allow us to deliver and service high-quality, cost-effective projects over the complete project lifecycle.

Ontario – Over 100 MWh of assets under contract for O&M services with a global leader in infrastructure services

Your Service Partner for the Long Term

As a full-service Battery Energy Storage Solutions firm, our dedicated O&M services team will work with you to simplify the management and execution of the complex variables associated with BESS projects. With unmatched in-house engineering teams, expert field services staff and essential industry partnerships, SunGrid is the partner that meets your needs over the long term.

SunGrid delivers flexible, tailored O&M program solutions that maintain system quality, performance and ensure equipment warranties are maintained.

These turnkey service capabilities cover:

- Management of BESS maintenance and warranty program
- Power Conversion systems (Inverters)
- Balance of plant electrical (medium and low voltage)
- HVAC, Fire Suppression, Security systems
- SCADA / HMI / Protection and Control
- Substation Maintenance
- Plant monitoring support services
- Balance of Plant (civil works / facility ground maintenance)
